

ENGE

MF 1600

MULTI-FUNCTION COLD LAMINATORA

THE PROFESSIONAL SERIES

ENGE-MF1600 is a wide format automatic cold laminating and mounting machine. It designed for series of MOJIE Non-Liner Cold Lamination Film and traditional PVC lamination film. Perfect for roll to roll laminating job.

- Use air pressure system contral press roller balance
- Pheumatic contral system
- Bowed Roller make it possible to flatten the tiny crapy film
- Automatically feeding the media which suitable for roll to roll and busy company
- With heating system for extremely cold workplace
- Strong construction

SPECIFICATION:

Power (V): AC220V
Rated Driving Power (W): 120W
Rated Heating Power (W): 1500W
Maximum Speed (M/min): 15m/minutes
Range Of Application: Series of Mojie Lamination Film
Max Lamination Width (Mm): 1600mm
Lamination Thickness (Mm): 0.02m - 5mm
Max Diameter Of Lamination Film Roll: 140mm
Max Diameter Of Media Roll: 140mm
Max Diameter Collection Laminated Roll: 180mm
Cutter: 2 Pcs. Manually adjust the cutter location
Pressurized Motion: Pneumatic. Pressure between 0.3 -0.5 Mpa
Diameter Of Rubber Covered Roller (Mm): 130mm
Length Of Rubber Covered Roller (Mm): 1650mm
Packing Size (Mm): 2070mm * 780mm * 910mm
Gross Weight Of Machins (Kg): 183 KG
Gross Weight After Packing (Kg): 228 KG
Structure: Detachable Structure
Size Of Media Loading Core: 3 Inches
Maximum Temperature: 60 °C
